LOCAL TELEPHONE EXCHANGE SERVICE

SERVICE CHARGES

A. GENERAL

1. Service charges are applicable with the establishment of telephone service and for subsequent moves thereto as specified in the tariff.
2. Service charges consisting of one or more of the following charges apply for new service which requires the activity or work as briefly indicated under "Charges" or as specified under the Application of Charges or as modified by specific tariff items elsewhere in the tariff.

B. APPLICATION OF CHARGES

1. Establishment of Service - An establishment of service charge applies on each customer order when a new customer account is established. A customer order involving changes or addition to an existing account (made subsequent to establishment of the account) also has an establishment of service charge as shown under "Charges." (C)

The establishment of service charge also applies to restoral of service temporarily disconnected for nonpayment.

2. Line Connection Charge - A line connection charge is made for each line on which work is required by the service order which does not involve dispatching a truck to the customer's premise. (C)
Included is restoral of service temporarily disconnected for nonpayment.
3. Premise Visit - A charge applies to each customer's order which requires a premise visit. This charge applies per premise or same continuous property of the customer. Service work in several buildings of a customer located on the same continuous property requires one premise visit charge.

LOCAL TELEPHONE EXCHANGE SERVICE
APPLICATION OF BOUNDARY DESIGNATIONS

A. GENERAL

1. Application of Boundary Designations

- a. Boundaries for base rate areas, locality rate areas, rural zones, and the service areas for exchanges or zones are designated on maps in Tariff M.P.S.C. No. 1R.
- b. Each establishment is within only one exchange or zone service area except as provided in "c." below.
- c. Where the boundary is designated as a road (street or highway) the area includes both sides of the road when the general plant facilities serving the area are located along side of the road. When such facilities are located on the near side of the highway, a customer located on the opposite side is considered to be within the area if the customer can be served by a drop wire using not more than one additional pole. When the general facilities are located on the far side of the boundary, a customer on that side is considered to be within the area if the customer can be served by means of a drop wire not requiring any additional poles. Where buried facilities are used, buried drops shall not exceed a distance of 500 feet from the right-of-way line on the far side of the boundary line.
- d. Where the boundary is designated as the center of the road (street or highway) each side of the road is in a different service area.
- e. Where the boundary is designated as a river (stream) or railroad each side of the river or railroad is in a different service area.
- f. Where the boundary divides a lake, the shore of the lake is in different service areas in accordance with the boundary designation at the shoreline.
- g. Where the boundary is designated as a township section line or a specified distance from a township section line, customers are served in accordance with their location with respect to such boundary line. When such a line is other than the section line or one-quarter or one-half mile from a section line, the location of the boundary line with respect to the section line will be shown in feet or fractional miles on the tariff map sheet.

DESCRIPTION OF SERVICE (CONT'D)

A. General (Cont'd).

8. Calls made to a telephone number with an NPA NXX that is associated with the rate center that is within the customer's local calling area are local calls regardless of the physical location of the called party.

Calls will be completed as local calls without charges in addition to the customer's monthly rate so long as (i) the call terminates to an end user physically located in the called exchange, and (ii) the provider terminating the call has made interconnection and exchange of traffic arrangements with the Company.

Promotional Offering

The Company, from time to time, recurring or nonrecurring, may make promotional offerings of its services, which may include waiver or reducing the applicable charges for the promoted service.

All promotions will be limited in duration, and will identify a definite, reasonable time period during which the promotion will be in effect. A promotion may also be limited as to the locations where the offerings are made. A promotion may also, if so designated, provide for its conclusion upon the occurrence of a promotion-related event that is reasonably certain to occur, although the timing may not be certain.

Promotions will be implemented with at least one day's notice prior to the effective date of each promotion.
