LOCAL TELEPHONE EXCHANGE SERVICE

BASIC SERVICE RATES

Exchange: WINN

A. GENERAL

The rates shown below entitle the customer to local dialed calls without charges (except semi-public) to all stations bearing the designation of a central office of the following exchanges that comprise the Local Service of the Blanchard Exchange.

Winn Blanchard Edmore Mt. Pleasant Riverdale Shepherd Vestaburg

Winn will block calls dialed 1-plus to stations within the Winn, Blanchard, Edmore, Mt. Pleasant, Riverdale, Shepherd and Vestaburg exchanges. Winn will treat calls dialed without 1-plus to the Local Service Area as local calls and Winn will bill those calls according to this tariff.

B. MONTHLY RATES

<u>Class of Service</u>	<u>1-Party Without Telephone Set</u>
Business	
One-Party	\$ 25.17*
6 or fewer lines	25.17*
7 or more lines	21.59*
Educational	21.67*
Residence	21.81*

* The charges for basic local exchange service and end user common line charges were integrated and rates were increased effective December 1, 2001.

C. LOCAL MOU RATE

For calls dialed to a station bearing the designation of the Winn central office, the Company will not charge a local MOU rate.

For calls dialed to a station bearing the designation of the Blanchard, Edmore, Mt. Pleasant, Riverdale, Shepherd, and Vestaburg exchanges, the Company will charge the following:

First 2,000 Conversation MOU in each billing period	\$0.00 per Conversation MOU
Each Conversation MOU over 2,000 that billing period	\$0.05 per Conversation MOU

The Company will measure Conversation MOU from the time when the Company's switching equipment receives answer supervision to the earlier of when the Company's switch receives disconnect supervision from either its switch or the terminating switch. The Company will measure local Conversation MOU to the next higher whole MOU per call.

The Company will not bill the end user for non-conversation time related to local calls.

Local Conversation MOU billing will not apply to 0-plus and 0-minus calls.

The Company will not provide call record detail for local usage on the monthly bills.

No Conversation MOU are carried forward from month to month.

Calls made to a telephone number with an NPA NXX that is associated with the rate center that is within the customer's local calling area are local calls regardless of the physical location of the called party.

LOCAL TELEPHONE EXCHANGE SERVICE
APPLICATION OF BOUNDARY DESIGNATIONS

A. GENERAL

1. Application of Boundary Designations
 - a. Boundaries for Locality Rate Areas and the service areas for Exchanges are designated on maps in Tariff M.P.S.C. No. 1R.
 - b. Each establishment is within only one Exchange area except as provided in c. below.
 - c. Where the boundary is designated as a road (street or highway) the area includes that side of the highway on which are located the general plant facilities serving both sides of the highway. When such facilities are located on the near side of the highway, a customer located on the opposite side is considered to be within the area if he can be served by a drop wire using not more than one additional pole; when the general facilities are located on the far side of the boundary, a customer on that side is considered to be within the area if he can be served by means of a drop wire not requiring any additional poles.
 - d. Where the boundary is designated as the center of the road (street or highway), each side of the road is in a different service area.
 - e. Where the boundary is designated as a river (stream) or railroad, each side of the river or railroad is in a different service area.
 - f. Where the boundary divides a lake, the shore of the lake is in different service areas in accordance with the boundary designation at the shoreline.
 - g. Where the boundary is designated as a Township Section Line or a specified distance from a Township Section Line, customers are served in accordance with their location with respect to such boundary line. When such a line is other than the section line or one-quarter or one-half mile from a section line, the location of the boundary line with respect to the section line will be shown in feet or fractional miles on the Exchange Area Map Sheet.

COMBINATION MAIN STATION SERVICE

A. GENERAL

1. Combination Main Station Service applies to cases where a customer wishes to contract for a main station service at each of two separate locations (ordinarily each station will be assigned a separate telephone number) within the same exchange, so as to be able to answer calls for one main station at the other main station location or both stations at either location.
2. Combination Main Station Service is provided only in connection with individual lines (excluding coin box lines and lines terminating in key telephone systems, key equipment, key cabinets, and similar switching devices) and is furnished subject to the ability of the Telephone Company to provide satisfactory transmission and signaling arrangements and to the rate treatment outlined herein.
3. Combination Main Station Service may be employed where one station is at a business location and the other at a residence or where both stations are at either business or residence locations, but only in connection with services contracted for and used by the same customer.

B. RATES

1. Each main station is charged for at the established individual line business or residence rate, according to the classification of the service at each premises as to business or residence character.

LOCAL TELEPHONE EXCHANGE SERVICE

PAYSTATION SERVICE

A. GENERAL

Paystation Service provides telephone service to a customer- leased or owned paystation with or without coin collecting devices. A Paystation Access Line permits providers of such service to provide pay telephone service to the public.

B. DEFINITIONS

Coin Supervision - Provides signaling capability from the central office for paystations that do not have a signaling capability within the telephone. This signaling capability provides operators and/or operator systems coin control.

Customer - For the purposes of this tariff, the customer is the Paystation Service Provider.

Network Interface Device - A company-provided jack or its equivalent. It is the point of connection between the Company owned wiring and wiring owned by the customer. For the purposes of this tariff, the network interface device will be installed at a location mutually agreed upon by the customer and the Company.

Originating Line Screening (OLS) - Enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned paystations, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available.

Paystation Access Line - A basic coin transmission dial tone line. It is a line side connection from the local exchange switch to the point of demarcation at the customer premises.

Selective Class of Call Screening - Enables the customer to restrict outgoing operator-handled calls, placed over the Company's network, from the service point to only those calls which are charged to a called telephone, a third party or a calling card. Selective Class of Call Screening will be provided at the customer's option, where such facilities are available.

LOCAL TELEPHONE EXCHANGE SERVICE

PAYSTATION SERVICE

C. RULES AND REGULATIONS

1. Paystation Service will be considered a business Service for the purpose of applying the terms, rates and conditions found elsewhere in this tariff.
2. Only one paystation instrument may be connected to each Paystation Access Line. Off-Premise Extensions are not permitted.
3. The customer shall be responsible for the installation, operation and maintenance of any paystation instrument used in connection with this service.
4. Requests to Directory Assistance Service originated from paystations will be charged the applicable rate of the Directory Assistance Service Provider.
5. Directory listings may be provided under the regulations that govern the furnishing of listings for business customers.
6. Coin-free operator and emergency 911 access must be available from all paystations.
7. One directory will be distributed to the customer without charge for each paystation business exchange line.
8. The customer is responsible for the provision of booths, shelves, directories and all other ancillary equipment.
9. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls. The Company shall not be liable for shortages of coins collected and deposited at the customer's paystation instrument.
10. The Company reserves the right to disconnect service when the customer does not comply with the F.C.C. and state rules and regulations related to paystation service and equipment.
